Wish Granting Timeframe

Wishes involving travel outside of the continental US (international, Hawaii, Alaska), cruise wishes, construction wishes, certain "to have" wishes, and other larger-scale wish types will take considerably longer to grant than our average wish granting time frame of 9 to 18 months from the time the wish is determined (paperwork submitted to the office). As these wishes will likely take longer than 18 months to grant, it is important that we set reasonable expectations with our families. Please review these timeframes with the family during the Wish Discovery Meeting.
